

AEROSOL

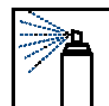

WINDOW CLEANER

FEATURES AND USE

Detergent specifically formulated for cleaning windows, glasses, crystals and mirrors. Extremely efficient, it leaves surfaces bright and streak free.

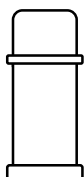

It contains anionic surfactants and glycol ethers; it easily removes all types of dirt and creates a long-lasting dust repellent effect.

METHOD OF USE

Shake the can and spray the product on the surface to be cleaned, it will create an active light foam which will dissolve all types of dirt, nicotine, grease and dust. Let it act then dry with paper or a cloth.
