

## CANDOR

### LAUNDRY WASH ATOMIZED DETERGENT WITH PERBORATE

#### FEATURES AND USE

CANDOR is an atomized detergent for removing dirt in laundry washing machines. CANDOR can be used with any type of laundry, domestic and industrial. The high content of sequestrants makes it possible to use CANDOR with any degree of water hardness, in case of very hard water the dose must be increased. CANDOR does not produce calcareous residue on laundry or on the machine, thus helping to maintain the fabric soft. CANDOR contains anionic, non-ionic surfactants, phosphates, phosphonates, sodium soap, stabilizers, anti-foaming agent, colorants and fragrance.

#### METHOD OF USE:

Wash in washing machine : pour the suggested CANDOR dose into the washing compartment.
