

LINDOR

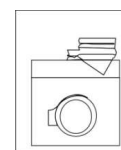

LAUNDRY

LAUNDRY WASH POWDER DETERGENT

FEATURES AND USE

Powder detergent for machine laundry wash. It can be used with any type of laundry, either household or industrial. It contains: anionic, non-ionic surfactants, phosphates, phosphonates, phosphonates, sodium soap, stabilizers, anti-foaming agent, colorants and fragrance. Its high sequestering agents content makes it suitable for use with any water hardness. In case of very hard water the dosage shall be increased. LINDOR does not leave calcareous residues on the laundry or in the machine, thus helping to keep fabrics soft.

METHOD OF USE and DOSAGE

PREWASH

Soft water (0-15° F): 8g/kg dry fabric

Hard water (15-25°F): 15g/kg dry fabric

Very hard water (>25°F): Increase dosage of 1g for every water hardness degree higher than 25°F

WASH

Soft water (0-15° F): 18g/kg dry fabric.

Hard water (15-25°F): 25g/kg dry fabric.

Very hard water (>25°F): Increase dosage of 1g for every water hardness degree higher than 25°F

Pour the proper dose of product in the washing machine tray (preferably while the water is still flowing) or directly into the drum.

PACK SIZE

Art. code LI10

TECHNICAL DATA

Physical state: powder

Colour: white

Odour: flower

Apparent density: 690+/- 50 g/L

COMPOSITION

See safety data sheet. Ingredients compliant with CE Reg. 648/2004

CAUTIONS

See safety data sheet.
