

## FLOOR PROTECTION

## ANTISTATIC ALCOHOL-RESISTANT FLOOR POLISH

### FEATURES AND USE

High-gloss self-polishing emulsion suitable for linoleum, PVC, rubber and porous floors. Its particular mixture of waxes and polymers makes it resistant to alcohol and disinfectant solutions. This characteristic makes it advisable for the sanitary field. The specific anti-static component added to the product favor the dispersion of static electricity. Long lasting and easy to maintain. Good results with high speed system (HI-SPEED).

### METHOD OF USE

After stripping old wax with RAPPER or DR15, apply two crisscrossing coats of undiluted Mayor Hospital and let each coat dry perfectly (not less than one hour).

Maintain with dry method using SCHNELL or with wet method using GREEN, GLOSSY or ASTRA.

### DILUTION

Ready to use

### PACK SIZE

5kg

4pcs/cart

Art. code: MH5

### STORAGE INSTRUCTIONS

Sensitive to frost

### TECHNICAL DATA

Physical state: liquid

Colour: white

Odour: odourless

pH: 8,35 +/-0,50

Density: 1,030 +/-0,025 Kg/L

Yield: 10-16 mq/L per coat depending on floor porosity

### COMPOSITION

See safety data sheet. Ingredients compliant with CE Reg. 648/2004

### CAUTIONS

See safety data sheet.
