

SCUDO

FLOOR PROTECTION

WATER&OIL-PROOF STAIN&DUST-RESISTANT PRODUCT FOR CONCRETE SURFACES

FEATURES AND USE

SCUDO is suitable for protecting concrete floors that are highly porous and therefore particularly subject to oily stains and dirt. It is water-based and contains acrylic and polyurethane resins that prevent dirt, especially oily one, to penetrate seep through the floor's pores. SCUDO is resistant to detergents and highly resistant to foot traffic.

METHOD OF USE

Before treating with SCUDO, deep clean the floor with STRAT or RAPPER, then rinse thoroughly. Lay a first and uniform coat of SCUDO, let dry for about one hour, then lay the second coat, crisscrossing the first one.

Maintain using GREEN, SIC, ABETE, or GLOSSY.

For special maintenance wash with GOTA then restore the protection with one coat of SCUDO.

DILUTION

Ready to use

STORAGE INSTRUCTIONS

Sensitive to frost

PACK SIZE

5kg

4pcs/cart

Art. code: SC5

10kg

Art. code: SC10

TECHNICAL DATA

Physical state: liquid

Colour: white

Odour: technical

pH: 8,5+/-0,5

Relative density: 1,010 Kg/L

Yield: 10-16 mq/L per coat depending on floor porosity

COMPOSITION

See safety data sheet. Ingredients compliant with CE Reg. 648/2004

CAUTIONS

See safety data sheet.
